

CHOOSE THE RIGHT PRODUCTS
TO OPTIMIZE YOUR PRESSROOM

Tower Products formulates effective pressroom chemistry and press wash products for environmentally conscious printers working in low VOC restricted pressrooms.
We serve the offset, flexographic, and digital industries with approved products formulated to be California compliant at < 100 Gm/L VOC content.

	Product	Description	Flash Point °F	Composite Vapor Pressure mmHg@68	VOC Data Gm/L	Odor	pH	Available Sizes
FOUNTAIN SOLUTION AND ARP	All Tower fountain solution and ARP	All are compliant when diluted in water						5G pail-55G drum-275G tote
	Millenium 6000	Two Step etch to help minimize ink piling and picture framing	>209°	<1.0	0	Mild	3.8	
	Millenium 7000	For integrated dampening systems buffered to manage calcium buildup	>209°	<1.0	0	Mild	3.8	
WASHES	LO-VO Wash CA-100	For automatic blanket wash systems to clean and leave no residue	>231°	1.0	99	Solvent	NA	5G pail - 55G drum
